Top Lodgings at Tremblant

Think log cabin living means roughing it? Not at Tremblant's Cote Nord. Here's a new take on the log cabin. You've still got the scenery and the privacy, surrounded by trees. You've still got the wildlife – we had two deer at our deck within an hour of arriving, no exaggeration. And you've still got the rustic bliss of being surrounded by wood and that awesome spa-like aroma, but that is where the parallel to traditional log cabins ends. These can only be called "cabins" in the loosest sense of the word, they are so spacious and completely decked out. They've got the high end finishings and fixtures you'd expect at a luxury resort, fully loaded kitchen and bathrooms extraordinaire, oversized furniture, huge patio, original artwork and every amenity you could possibly

wish for, right down to the party-size outdoor Jacuzzi. This place is ready for you and a dozen friends to rock out or relax to the max. Just prepare to be spoiled. My personal recommendation: unpack all your clothes when you get there, so they soak up that woody fragrance and bring it home with you. But I'm warning you, you'll never want to leave.
